What are the procedures from deleting page 13s from NSIPS? If the page 13 has not been validated, it can be removed by the NSIPS rep. Page 13s should only be validated when the original has been printed, signed and witnessed. The last and most important step is to mail the original to PERS 31, for entry into the Electronic Service Record (ESR). If the page 13 has been validated and/or mailed into PERS 31, the command must send official correspondence to PERS 31. PERS 31 will verify request with the PRP office prior to removing the document from the Electronic Service Record.
